

Innovative Building Solutions for a Sustainable Environment

Zefyr Case Study Job 799 Accommodation & Train Station

# Lancaster Gate Project

Zefyr designed and supplied extruded aluminium louvres - anodised AA25 with a stainless steel support structure and mirror-finished stainless steel framing. Zefyr also supplied bespoke windows with mirror finished stainless steel framing. These were designed for longevity and low maintenance with a very high quality finish in keeping with the building.

P/S  
Hope we can  
do some more  
work together  
in the future.

Simon & All

Thank you for your efforts at the Hotel.  
Everyone is extremely happy with the finish product.

With Compliments
